All the terms and condition in the above stated Unilever Purchasing Agreement are applicable to this Statement of Work.

1) Statement of Work:

Client: Unilever U.K. Central Resources Ltd.

Project Name: DP ML Europe BAU

Statement Of Work: Sep 2022 – Mar 2023

MSA/UPA Agreement#: CW67101

Project Code: DP ML Europe BAU

2) Project Background:

Unilever has undertaken a program to improve the Demand Planning KPIs by leveraging Machine Learning capabilities. EY will be help out Unilever in doing the parallel run for forecast generation. This is done under the program DP ML.

3) Overall Project Scope:

Our experienced professional would assist Unilever in managing complex programs across Supply chain projects that focus on delivering value, reducing risk and enhancing enterprise alignment.

4) Geographical Scope: Geographical scope includes all the global landscapes of Unilever. EY resources will work out of Unilever Bangalore locations to reap benefits of cost advantages.

5) Functional Scope: Project will be led by Global I&A Director and the Global solution Delivery project team consisting of UniOps Enterprise Solutions and EY will be formed.

6) Systems Scope: This is a non-system consulting project and hence involves not system changes as part of its scope.

We will not identify, address or correct any errors or defects in your computer systems, other devices or components thereof ("Systems"), whether or not due to imprecise or ambiguous entry, storage, interpretation or processing or reporting of data. We will not be responsible for any defect or problem arising out of or related to data processing in any Systems.

7) Technical Scope: EY team will help Unilever project managers in driving the project. Details are as follows : -

- Our data scientist professionals would assist Unilever in managing and executing complex program that focuses on delivering value, reducing risk and enhancing enterprise alignment.
- Doing weekly parallel run for generating the Total Demand Planning Forecast for the categories
- Out professional would also assist Unilever in weekly forecast generation for Switzerland.
 - The current scope of the exercise is for 12 categories, where EY will be responsible for generating forecast and analysing the queries on forecast submitted.
 - KPI calculation, visualization, APO & CRs (Model enhancement, model fine tuning, hypothesis testing and CI activities) upload will not be part of the scope.
 - Any CRs during BAU will not be included as part of the support and will be charged separately according to the effort by EY
 - Format of input data cannot be changed during support stage and any change will be considered as a separate CR
 - Resource allocation for support activity will be done by EY Improve communication and decision-making process to help project achieve the strategic objectives
- Knowledge management by maintaining repository of plans, processes, work stream reports.

8) Project Approach: Our team of experienced data scientist professionals would assist Unilever in managing and executing activities with respect to analysis of sustainability data, from Unilever Bangalore, utilizing standard templates and tools for review, analysis and presentation of the results.

9) Project Timelines: Unless otherwise agreed, and subject to the terms and conditions, this SOW is valid till 26th March 2023.

10) Project Team Structure: EY project team will consist of Lead Data Scientists along with a team of data scientist (number of resources deployed/country will be done by EY)

11) Overall Project Assumptions: The calculation of fees is based on the scope defined in the project for Gen4a models

12) Fees are defined assuming India based resources only. Additional costs will be incurred for deploying EY resources from other regions/EY local resources for respective countries.

13) Travel expenses will be billed as per actual and as per the standard contract between Unilever and EY
