STATEMENT OF WORK

Between

Unilever U.K. Central Resources Ltd, 100 VE, Victoria Embankment, London and Ernst & Young LLP for Project I&A Data Lake

Further to the Engagement Agreement dated **1st Mar 2022**, in connection with Ernst & Young LLP ("we" or "EY") performing professional services for Unilever U.K. Central Resources Ltd be read in conjunction with Unilever Purchasing Agreement or Master Service Agreement CW67101 executed on 1st May 2019 Between Unilever U.K. Central Resources Ltd and Supplier name Ernst & Young LLP. All the terms and condition in the above stated Unilever Purchasing Agreement are applicable to this Statement of Work.

1) Statement of Work:

Client: Unilever U.K. Central Resources Ltd.
Project Name: I&A Data Lake
Statement Of Work: 01 Mar 2022 to 30 Apr 2022
MSA/UPA Agreement#: CW67101
Project Code: I&A Data Lake

2) Project Background:

- The Project helps Unilever in having a cloud-based system called 'Data Lake'.
- This Project further helps Unilever in creating a Testing Automation Framework to support its Data as a Platform (DaaP) initiative by empowering the stakeholders with faster testing turn-around time.

3) Overall Project Scope:

Our experienced professional would assist Unilever in testing the object logic mentioned in the functional specs and comparing the data against control system.

4) Geographical Scope:

Geographical scope includes all the Global landscapes of Unilever. EY resources will work out of Unilever Bangalore locations to reap benefits of cost advantages.

5) Functional Scope:

Project will be led by ES IT Innovation Director and the Global solution Delivery project team consisting of ETS Enterprise Solutions and EY will be formed.

6) Systems Scope:

- This is a non-system consulting project and hence involves not system changes as part of its scope.
- We will not identify, address or correct any errors or defects in your computer systems, other devices or components thereof ("Systems"), whether or not due to imprecise or ambiguous entry, storage, interpretation or processing or reporting of data. We will not be responsible for any defect or problem arising out of or related to data processing in any Systems.

7) Technical Scope:

EY team will help Unilever project managers in driving the project. Details are as follows:

- Our Project / Program management professionals would assist Unilever in managing and executing complex program that focuses on delivering value, reducing risk and enhancing enterprise alignment.
- Collect and deliver information progress within the business function to key stakeholders.
- Improve communication and decision-making process to help project achieve the strategic objectives.
- Knowledge management by maintaining repository of plans, processes, work stream reports.
- Below mentioned testing automation frameworks shall be delivered:
 - UDL Non-Functional Tests (NFT) Framework
 - BDL Non-Functional Tests (NFT) Framework
- Below UDL objects will serve as reference for EY team to design the UDL NFT framework:
 - Full Load:
 - EUDPPProductMaster
 - EUDPCustomerMaster
 - Delta / Incremental Load:
 - U2K2DPTransactionHistory
 - U2K2DPTransactionFuture
- Below BDL objects will serve as reference for EY team to design the BDL NFT framework:
 - RapidResponseDemandPlanningBook3
 - DemandPlanningBook
 - DemandPlanningBookWeekly

8) Project Approach:

Our team of experienced professionals would assist Unilever in managing and executing activities with respect to testing of UDL and BDL data, utilizing standard templates and tools for review, analysis and presentation of the results.

9) Project Timelines:

Unless otherwise agreed, and subject to the terms and conditions, this SOW is valid till 01 April 2022.

10) Project Team Structure:

EY project team will consist of following resources.

- Sr. Technical Analyst (1 no.) – Team Lead and Power BI Developer
- Sr. Developer (3 nos.) – Automation Script Developers

11) Overall Project Assumptions:

- UDL and BDL Technical Test Framework shall be based on objects updated in Unilever's Design App FS extracted data from Power BI, updated and maintained by Unilever teams, and access to the same will be provided to EY project team.
- All planned developments are in new ENVIRONMENT provisioned for Testing team, and Unilever shall ensure all Accesses are provided to EY project team members before the actual start date.
- The 'Config File' required for test scenario executions will be created as a Manual control file as a part of this Phase 1.
- Only the data in Parquet and CSV formats from processed folder within in-scope BDL and UDL objects will be in scope.
- At least 3 months data is made available in the objects for testing the framework.
- The calculation of fees is based on the man days per team member and the standard agreed rates as per agreement between Unilever and EY.
- Fees are defined assuming India based resources only. Additional costs will be incurred for deploying EY resources from other regions/EY local resources for respective countries.
- Travel expenses will be billed as per actual and as per the standard contract between Unilever and EY

Team Scope, Deliverables and Key Activities

12) Team Scope:

This document covers the roles and responsibilities of the following teams, within the scope of the overall team structure.

a) EY Responsibilities

Deliverable	Type of Deliverable	Completion date
Governance and communications	Weekly meeting / presentation / excel	On going
Project status report	Weekly meeting / presentation / excel	On going

b) Unilever Responsibilities

- Unilever Enterprise solution managers will monitor quality standards of deliverables, evaluate whether objectives are being met and enable project management. EY is fully accountable for deliverables mentioned in part (a) above. Unilever manager will be responsible to escalate or take corrective actions where other 3rd parties are involved.

c) Specific additional terms and conditions

- Our work will not be performed in accordance with generally accepted auditing, review, or other assurance standards in [the relevant jurisdiction] and accordingly does not express any form of assurance. None of the Services or any Reports will constitute any legal opinion or advice. We will not conduct a review to detect fraud or illegal acts.
- Notwithstanding anything to the contrary in the Agreement or this SOW, we do not assume any responsibility for any third-party products, programs or services, their performance or compliance with your specifications or otherwise.
- We have based any comments or recommendations as to the functional or technical capabilities of any products in use or being considered by you solely on information provided by your vendors, directly or through you. We are not responsible for the completeness or accuracy of any such information or for confirming any of it.

13) Risks

- Access to required development environments for EY Project Team are delayed.
- Required paths to access UDL and BDL Objects are not contained / updated in the Technical Catalogue maintained by Unilever.
- Any unplanned sick leaves or family emergency encountered by EY project team members.
