STATEMENT OF WORK

Between

Unilever U.K. Central Resources Ltd, 100 VE, Victoria Embankment, London

& Ernst & Young LLP for the NORDICS ML Enabled Demand Forecasting - Change Request

Further to the Engagement Agreement dated **17th February 2023**, in connection with Ernst & Young LLP ("we" or "EY") performing professional services for Unilever U.K. Central Resources Ltd be read in conjunction with Unilever Purchasing Agreement or Master Service Agreement CW67101 executed on 1st May 2019 Between Unilever U.K. Central Resources Ltd And Supplier name Ernst & Young LLP. All the terms and condition in the above stated Unilever Purchasing Agreement are applicable to this Statement of Work.

1) Statement of Work:

Client: Unilever U.K. Central Resources Ltd.
Project Name: ML enabled Demand Forecasting
Statement of Work: 17th Feb'2023 - 10th Mar'2023
MSA/UPA Agreement#: CW67101
Project Code: NORDICS ML Enabled Demand Forecasting CR

2) Project Background:

By leveraging Machine Learning capabilities, Unilever has undertaken a program to improve the Demand Planning KPIs. The EY team will work on change requests for the NORDICS market. This is done under the DP ML program.

3) Overall Project Scope:

Our experienced professional would assist Unilever in managing complex programs across Supply chain projects that focus on delivering value, reducing risk and enhancing enterprise alignment.

4) Geographical Scope: Geographical scope includes all the Global landscapes of Unilever. EY resources will work out of EY offices and will travel to UniOps Bengaluru offices as and when required by the client.

5) Functional Scope: The project will be led by the Global I&A Director and the Global solution Delivery project team consisting of UniOps Enterprise Solutions and EY will be formed.

6) Systems Scope: This is a non-system consulting project and hence involves not system changes as part of its scope.

We will not identify, address or correct any errors or defects in your computer systems, other devices or components thereof ("Systems"), whether or not due to imprecise or ambiguous entry, storage, interpretation or processing or reporting of data. We will not be responsible for any defect or problem arising out of or related to data processing in any Systems.

7) Technical Scope: During the Build stage, below are the following tasks EY team will be performing as a part of the change request for Indirect Ratio Implementation:

Sl.	Activity	CR Type	Role	Efforts (days)	Resources	Cost (EUR)
1	Develop and implement a logic to split the sales of warehouse customers into an indirect customers. Through this activity, indirect will be FEU in-scope and FEU can provide the forecast for the indirect customer also.	Build	DS	10	4	6,880
			Lead DS	7.5	1	1,350
2	Validating the logic for all 4 countries and their business groups.	Validation	DS	5	4	3,440
		Total		15		11,670

8) Project Approach: Our team of experienced data scientist professionals would assist Unilever in managing and executing activities with respect to analysis of sustainability data, from Unilever Bangalore, utilizing standard templates and tools for review, analysis and presentation of the results.

9) Project Timelines: Unless otherwise agreed, and subject to the terms and conditions, this SOW is valid till 10th March 2023.

10) Project Team Structure: EY project team will consist of team of Data Scientists to work on the CRs.

11) Overall Project Assumptions:

- The calculation of fees is based on the scope defined in the project for different Gen's
- Fees are defined assuming India based resources only. Additional costs will be incurred for deploying EY resources from other regions/EY local resources for respective countries.
- Travel expenses will be billed as per actual and as per the standard contract between Unilever and EY

Team Scope, Deliverables and Key Activities

12) Team Scope:

This document covers the roles and responsibilities of the following teams, within the scope of the overall team structure.

a) EY Responsibilities

Deliverable	Type of Deliverable	Completion date
Change Request	1. Build 2. Validation	On going

**b) Unilever Responsibilities**

Unilever Enterprise solution managers will monitor quality standards of deliverables, evaluate whether objectives are being met and enable project management. EY is fully accountable for deliverables mentioned in part (a) above. Unilever manager will be responsible to escalate or take corrective actions where other 3rd parties are involved.

c) Specific additional terms and conditions

Our work will not be performed in accordance with generally accepted auditing, review, or other assurance standards in [the relevant jurisdiction] and accordingly does not express any form of assurance. None of the Services or any Reports will constitute any legal opinion or advice. We will not conduct a review to detect fraud or illegal acts.

Notwithstanding anything to the contrary in the Agreement or this SOW, we do not assume any responsibility for any third-party products, programs or services, their performance or compliance with your specifications or otherwise.

We have based any comments or recommendations as to the functional or technical capabilities of any products in use or being considered by you solely on information provided by your vendors, directly or through you. We are not responsible for the completeness or accuracy of any such information or for confirming any of it.

13) Deliverables
